2012 Indicative Tuition Fees for International Students

Notes:

Tuition fees for international students at UNSW are set at course (subject) level rather than at program level. The fees for courses reflect the relative cost of providing each type of course

Within a course-based fee system it is not possible to give a fixed annual fee for each program as this will vary from student to student depending on their actual enrolment. However, it is possible to provide indicative fees for 1st year and to complete the program.

Total program costs are indicative only. Indicative fees have been calculated on a percentage increase for every year of the program.

Fee increases are assessed annually and may exceed the indicative figures listed below.

Indicative fees to complete include tuition plus an estimate of study-related costs of approximately a \$1,000 per year.
