

2011-2012 Admission Preview Handbook

PICTURE YOURSELF HERE.

Welcome to Victoria, a celebrated cultural destination at the southern tip of Vancouver Island.

By the end of your degree, you're likely to have hiked nearby Mt. Douglas, tried your luck in the Pacific surf and coasted across the iconic Inner Harbour by kayak, dragonboat, ferry or sea plane.

You'll have a favourite Thai, Indian and sushi restaurant. Your new favourite band will have played an amazing show downtown and you'll have a go-to late night pizza spot. You'll have closed down a local coffee shop with your textbooks and classmates. You'll probably have spent a bit too much money in the boutiques on Lower Johnson and you'll have ticket stubs from film festivals, plays and art shows cluttering your desk.

Sitting on the edge of the ocean between rainforest and rugged mountains, Victoria is the perfect city to explore year-round. Spend some time at workshops and readings in the community-minded Fernwood area, buy your vegetables in Canada's oldest Chinatown, take a ghost walk along Government Street and be sure to cycle to the farmers market on Saturdays in Fairfield, a character neighbourhood at the corner of downtown and Beacon Hill Park.

Welcome to your diverse and inspiring new home.

20 How to apply to UVic

21 When to apply to UVic

Aspiring screenwriter and West Coast-convert, Desiree Armstrong is a Victoria enthusiast who moonlights as a dance instructor at UVic and downtown at the YMCA. Catch her studying on the beach or playing Frisbee in the quad in the middle of November. She brought her interests in writing, business and film to UVic and her professors turned them into her passions.

"I came to Victoria over spring break and after visiting UVic I fell in love. There is such a sense of community that just makes this city and university instantly feel like home."

Desiree Armstrong

A university of inspiration.

What do you imagine your next four years will look like?

Do you want to explore what motivates you? Maybe you want to get involved in a project that pushes you to ask questions and develop your critical thinking skills?

UVic is a strong community of leaders who are inspired and motivated by their imaginations. Our students and faculty have a diverse legacy of achievement, working on original and innovative research to contribute to the world around them.

No matter your interest or background, UVic is the place to invest your passions, values and knowledge into your future goals on your own terms. Opportunities like our co-operative education program, field schools and international exchanges help prepare you for life as an engaged global citizen.

Bring your curiosity, determination and a few years of your time – UVic will give you the tools to transform your imagination into reality.

ALONG FOR THE RIDE:

Biking is not just a means of transportation here. It's a culture. Both the campus and Victoria are bike-friendly with electric charging stations and an impressive network of trails that thread through the city.

Connect with us.

Keep in touch.

www.uvic.ca/recruitme

Sign up with a few details about yourself and your academic interests and we'll send you regular email updates. Better yet, we'll build a personal UVic website designed especially for you with detailed information about your program area of interest, tips about what to do next, access to our UVic Facebook, Twitter and Flickr pages and all the information you'll need to study, live and experience life at UVic.

Experience the campus.

www.uvic.ca/experience

Dig a bit deeper into the UVic experience on **May 14, 2011** at Experience UVic or Destination UVic, two on-campus events aimed at introducing you to your faculty of choice and campus community in an open-house setting.

Take a tour.

www.uvic.ca/tours

Seeing is believing when it comes to UVic. Check out campus for yourself on a daily student-led tour by emailing tours@uvic.ca or click on "Take a Tour" at www.uvic.ca to explore our community from your computer at home.

Meet in person.

www.uvic.ca/recruiters

Each spring, the Student Recruitment team hits the road to share the UVic experience and help answer any questions you may have about the application, admission and registration processes. Check our online schedule to see when we'll be in your area.

150

UVic students have represented Canada in the Olympic games.

97

Percentage of UVic graduates who say UVic was the right choice for them.

70

Percentage of our students that come from outside of Victoria, making UVic a destination university full of people living away from home and invested in creating a community together.

1

The Globe and Mail ranks UVic as the top university in BC on five factors: quality of education, sense of community, faculty accessibility, campus environment and overall satisfaction with the student experience.

Economics student Pravin Narsing is a visionary with an eye for composition and a passion for travel. Find him around campus behind the lens or in class studying social economics and experimental films. Pravin shot our viewbook's cover, studied in Sweden on international exchange and gets excited about urban economics.

"Film Studies has changed how I view movies – it taught me the history and technique and showed me the importance of style, which has aided my photography."

Pravin Narsing

A university of opportunity.

Whether you want to study the behaviour of meerkats, teach computer skills to women in Kenya or map cities in danger of ending up underwater, UVic paves the way to your goal according to your talents and learning style.

Your abilities likely span more than one area of study, so blend your mixed interests with a combined degree and electives that captivate your imagination. Many faculties offer introductory courses for non-specialists and you have the option to pursue inter-faculty degrees on topics like social justice, European studies, applied ethics and Indigenous studies.

Explore your options.

Already know what you'd like to study? Choose your program from the list to the right and look up the finer points of the faculty, department and admission requirements at www.uvic.ca/academic.

Not sure where to start? It's common for students to spend their first year exploring their options across faculties before finding exactly where their intellectual interests fit. Apply as "undecided" to the Faculty of Humanities, Science or Social Sciences and explore a range of introductory courses in your first year.

Looking for something unique? UVic's interdisciplinary options offer you the opportunity to broaden your world view and pursue a topic that doesn't quite fit in just one faculty. Check out www.uvic.ca/interdisciplinary for details.

Programs available for direct entry from high school

Faculty of Business

Additional programs and other options

UVic offers a range of minors—from economic policy to professional writing—as well as a number of programs not available for direct entry from high school, including **education, social work, law and medicine**. For a complete list of the programs offered, including pre-professional studies, diplomas and certificates, consult the calendar at www.uvic.ca/calendar.

Terminology

What is a faculty? A group of related academic departments or schools. UVic has 10 faculties in total. See www.uvic.ca/academic for a complete list.

What is a department or school? A unit that is devoted to a particular academic discipline. Faculties are often made of several departments or schools. For example, the Faculty of Engineering includes the Department of Computer Science and the Department of Mechanical Engineering.

What is a program? A collection of courses required and organized to fulfill an academic objective within a particular department or school.

Most programs offer a co-operative education option (see page 7 for details). Programs where participation in co-op is mandatory are marked with an asterisk (*).

Earth and ocean sciences student and member of the graduating class of 2011, Ashley Gross spends a lot of time wearing a hard hat when she's not in her dance shoes. In 2008 she took a co-op placement at the Hawaii Volcanoes National Park to conduct ground deformation research for the state's volcano observatory.

"Co-op gave me an incredible opportunity to discover what I wanted to do with my career; I highly recommend it."

Ashley Gross

A university of adventure.

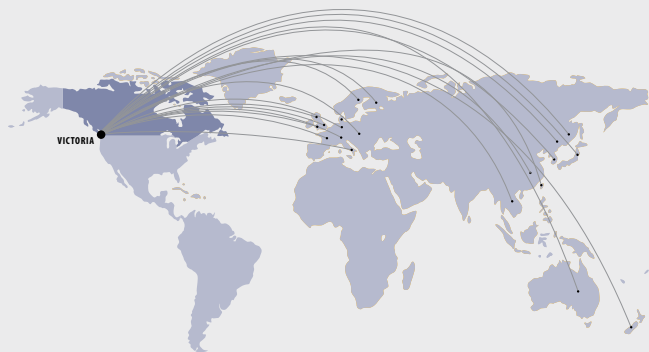

Interested in taking your education global? Visit www.iess.uvic.ca to get started.

Think outside the classroom – way outside. Lectures, labs and tutorials may be where learning starts at UVic but the big picture experience often extends to the far reaches of the globe.

You're encouraged to support what you learn in your courses with work placements, volunteerism and your lived experiences near and far to build your career and résumé the moment you start your degree.

You are here to choose your own adventure and connect with the world, contribute to social sustainability, explore your curiosities and access extraordinary minds. This professional development can take you almost any place you want to go.

UVic has exchange agreements with more than 50 institutions in 20 countries around the world.

Play the field.

As a UVic student, you have the option to study at field centres on Vancouver Island and abroad, including the Bamfield Marine Centre—one of the best facilities on the planet for coastal marine research.

If you want to get even further away, consider studying for up to four months at either the tropical biology field school in Malaysia or travelling around Greece to study classical archaeology.

Looking to stay abroad a bit longer? Think about participating in a semester or year-long exchange. You get to pay UVic tuition fees and earn credit towards your degree while exploring the landscape, culture and society of another university and country.

Put your learning in motion.

One of the best learn-by-doing options is UVic's impressive and diverse co-operative education program, where you alternate terms in school with terms in a job related to your degree and earn an average monthly salary of \$2,700 (CAD).

Co-op degree students work with employers around the world. Past employers include National Geographic, BMW, the BC Cancer Agency, Engineers Without Borders in Ghana and the United Nations in New York.

A sample co-op schedule might look something like this:

	FALL TERM (September to December)	SPRING TERM (January to April)	SUMMER TERM (May to August)
YEAR 1	Study term	Study term	Free summer
YEAR 2	Study term	Study term	Work term
YEAR 3	Study term	Work term	Study term
YEAR 4	Work term	Study term	Work term
YEAR 5	Study term/graduate		

TOOLS OF THE TRADE:

Co-op and Career have put together three kits—the journey kit (career planning), the competency kit (recognizing strengths) and the tool kit (writing résumés and cover letters)—to help you strengthen your professional skills. You can access all three at www.uvic.ca/coopandcareer.

Make sure to connect with our staff at Career Services to:

- Plan and manage your career
- Find part-time, summer, casual or post-graduation work
- Navigate volunteer opportunities and internships
- Practice your interview skills
- Learn about upcoming co-op and career-related events

Read about co-op success stories and plan your own adventure at www.uvic.ca/coopandcareer.

Psychology student, graduate in 2011, twin and soccer all-star. Christine Abram is a US export with a passion for childhood psychology and learning what makes consumers tick. She works for Vikes Athletics on campus, supporting our athletes and welcoming our fans.

“Getting involved at a deeper level with campus has made my experience better than I could have imagined – it’s given me a chance to feel connected to a unique community.”

Christine Abram

A university of connections.

President of your student council? Dodgeball captain contender? Maybe you love to dance, debate and learn Spanish as a second language in your spare time.

At UVic, talented students become inspiring people by finding balance between scholastic curiosity and a lifestyle incorporating academic, athletic, altruistic and personal interests.

Your student experience isn’t just about what you study—it’s also about the community you learn and grow with through your faculty, friend and alumni connections. Make time to explore some of the 200 student organizations, teams and academic unions that already exist. Better yet, create your own while you’re here.

Your UVic,
outside of class.

Play hard.

www.vikesrec.uvic.ca

Team sports at any level are a big part of life at UVic. You can choose to join an intramural sports league or one of the sport clubs with friends and strangers alike. If you’re looking for a bit more competition consider trying out for one of UVic’s varsity teams. Our Vikes have won 64 national championships and have produced more than 150 Canadian Olympic and Paralympic athletes and coaches.

Help out.

Opportunities to donate your spare time are rich on campus – from organizing a conference for the Biology Undergraduate Society (BUGS) and fundraising for the Red Cross to hosting a radio show on CFUV, the campus radio station. Visit the job board at www.careerservices.uvic.ca for off-campus volunteer opportunities.

A place to call home.

Considering living in residence? You're in good company. More than fifty percent of first-year students choose to live where they learn. Residence life has its advantages—your meals are taken care of, your friends are your neighbours, you're steps away from class and you can take part in the many social, academic, personal and recreational programs developed by the residence life staff.

Applying for housing: Once you apply for admission to UVic and receive your student ID number, you'll need to submit a separate housing application if you want to live in residence. Visit housing.uvic.ca/winter for more information.

First-year guarantee: Coming to UVic directly from high school? Once you've accepted your offer of admission, you're guaranteed a spot in residence if you submit a housing application and pay both your UVic acceptance deposit and the \$25 (CAD) housing application fee by June 30.

Residence rates for 2010-2011:

Single room with medium food plan
(September to April): \$7,696

Double room with medium food plan
(September to April): \$6,818

If you'd rather live off campus, you can check out UVic's online registry at housing.uvic.ca/offcampus to browse for apartments, houses and shared accommodation.

Questions?

For more information on residence life and on-campus housing options, visit www.uvic.ca/housing or contact Residence Services at housing@uvic.ca or 250-721-8395.

UVic supports men's and women's varsity teams in basketball, cross-country and track and field, field hockey, golf, rowing, rugby, soccer and swimming. For more information, visit www.govikesgo.com.

Find a new hobby.

www.uvss.uvic.ca

UVic's range of student clubs reflects the diversity of our community and the scope of passions that are shared among our students. Browse through the list of club and course unions online and check out Clubs and Course Union Days in the fall.

Stay fit.

www.vikesrec.uvic.ca

Between the two athletics and recreation facilities on campus you'll find a full-body workout and opportunities to join fitness classes across the training spectrum—from belly dancing to kickboxing to boot camp. Explore your recreational options online or pick up a recreation schedule at either facility.

Visual arts student Alesha Beckett is a humanitarian and hands-on learner. Find her with a coffee in hand at the Bibliocafé or camping on a nearby beach for the weekend. She recently partnered with the “For the Children of Haiti” relief effort, bringing art supplies and projects to an orphanage in Port-au-Prince. More than an opportunity to teach art essentials, Alesha’s experience was about building relationships and exploring creativity in times of suffering.

“I am fortunate to live in such a global-minded community that has given me opportunities to give back. I’m constantly growing and learning about myself because of these experiences.”

Alesha Beckett

A university of support.

University may seem like a big jump but our faculty, staff and alumni are dedicated to helping you find your footing and get the most from your student experience.

Support can mean something different depending on who you are. Our interfaith chaplaincy is home to 14 faith groups, we have an outstanding resource centre for students with a disability and we are the proud home of a First Peoples House that facilitates events and programs like Elders in Residence, where students can meet one-on-one with an Elder on campus during drop-in hours.

Your peace of mind as a student is rooted in accessing the wide range of support services UVic offers, including counselling, career search support, computer help and tutoring at the UVic Learning Commons. Click on ‘Explore UVic’ at www.uvic.ca to see how we can help.

\$4,766

Tuition

\$146

(Fees are current as of July 2010)

A big return on an important investment.

Your education is a vital investment in your future goals – and, as an institution with a world-class reputation, your UVic degree gets you exceptional value for your dollar. You'll find detailed information about student awards and financial aid online but take a look through the basics below.

Apply for a scholarship or bursary:

Last year, UVic awarded \$6.63 million in scholarships and bursaries and one in three students received an entrance scholarship. Visit www.uvic.ca/safa for scholarship and bursary application information and deadlines.

Arrange for a student loan:

Visit www.canlearn.ca for information about loans and grants.

Work on campus while you study:

Visit www.uvic.ca/safa for details about the Work Study Program, which connects students with part-time jobs on campus.

Find a job that suits you:

UVic Co-op and Career staff can help you find many types of jobs, including part-time, full-time and volunteer opportunities. Visit www.uvic.ca/coopandcareer for details.

CASH IN:

Coming to UVic from a Canadian city outside Victoria? Apply for a UVic entrance scholarship and you may be eligible to receive an additional "Come to Campus" travel grant of up to \$1,000 (CAD).

Questions?

For more information, visit www.uvic.ca/safa or contact our Student Awards and Financial Aid office at finaid@uvic.ca or 250-721-8423.

\$288

Health and Dental Plan

\$6,318 to \$8,196

Residence (room and board)

\$13,512 to \$15,390

Total

Salsa dancer, explorer, small-town BC boy. Nick Brown is interested in climate change, water accessibility and finding new spots to climb, bike or ski on Vancouver Island. When he's not in class or scaling a nearby mountain you can find him in the living room jamming with his roommates.

"Get a bike — even if it's an old beater. It makes the city and surrounding area so easily accessible and you can bike year-round."

Nick Brown

A university of insight.

Welcome to a place of clarity, to an education that will deepen your perception of the world both on and off campus.

UVic students are part of an inclusive community and make decisions based on their attitudes and values. Decisions that include open conversations, respect for the varied perspectives represented on this campus and acknowledgement of the traditional origins of the university itself.

Look a little further to see our respect for the health of our planet, including insightful research into climate change and productive, eco-friendly buildings.

We've nurtured forward-thinking minds from all over the world for more than 100 years. Our alumni include award-winning writers, Olympic athletes, progressive entrepreneurs, indie filmmakers and leading earth and ocean scientists among so many other brave thinkers.

At UVic, you can root your values in experience and expand your imagination of what's possible.

DID YOU KNOW?

As part of UVic's commitment to sustainability, we're now using plant starch cutlery in our cafeterias. It's 100% biodegradable and compostable and naturally returns to the earth as fertilizer with no chemical residue.

In pursuit of partnerships.

UVic resides on the traditional lands of the Coast Salish and Straits Salish peoples and respects the rights, heritage and nationhood of these origins.

Both Indigenous and non-Indigenous students can connect to this community through intimate and collaborative courses at UVic, including a minor in Indigenous Studies that incorporates classes and viewpoints from multiple departments. Indigenous ways of knowing, oral histories and language revitalization projects are explored in Aboriginal education electives and social work students can choose to specialize in Indigenous child welfare.

We've got you covered.

Whether you grew up down the street, transferred from another institution or travelled to Victoria from abroad, take advantage of orientation programs when you get here in September to meet your fellow students and start your degree with the right information.

Visit www.uvic.ca/orientation to find out more about UVic's Weeks of Welcome activities and how you can participate.

Join the conversation.

Put the time you spend on Facebook to good use and join more than 1,000 new and incoming UVic students on our **My First Year @ UVic Facebook** group. Prospective students use the group to get their questions answered throughout the application process; incoming students find roommates, bandmates, textbooks and must-dos over the summer before they get here and first-year students post photos, social events and advice for the next generation.

Quiz us, poke us, share what you learn with other students along the way and make sure to post your best first-year photos to the group once you get here.

If you could do anything, what would you do?

With one camera and one question, we created a video and a project to showcase the aspirations and dreams of UVic students, faculty, staff and alumni so that any person around the world might find inspiration in the possible. Watch the video, click through the responses we've already gathered and then chime in with your own words, photo or video.

No goal is too optimistic, too complicated, too silly or too unrealistic. If you want to tend goal in the NHL, backpack through India and become a marine biologist in one go we want to hear about it and help you jumpstart your goals while you're here.

Share your answer at anythingproject.uvic.ca and contribute your voice to the spirit of the UVic community as part of The Anything Project.

Student mentor, West Coast native, lover of nature. Jessica McCoey is a renaissance woman and avid social psychologist. She's a peer helper, literacy tutor, beachgoer, nanny and IMAX enthusiast. Spot her in class studying the origins of motivation and happiness or relaxing with friends on Gonzales beach.

"Coming to UVic completely changed my life by exposing me to new viewpoints, knowledge and experiences. There is something so special about the setting of this place and the people that live here."

Jessica McCoey

A university of achievement.

It's impossible not to shine in a community of extraordinary imaginations and achieved goals. Since 1903, the campus has produced talented and diverse alumni like Alison Syder, an eleven-time Olympic mountain biking medalist Stewart Butterfield, co-founder of Flickr. You're next.

Your UVic degree will be an education in citizenship, flexibility, diverse opinions, learning-by-doing, research and a balanced lifestyle. We can't wait for you to start.

Information for all applicants

For admission requirements by faculty and province, see pages 16 to 19. If you know you'd like to pursue a specific degree program, visit www.uvic.ca/programreq to help plan your Grade 11 and 12 courses.

Applicants whose first language is not English

If your first language is not English, you must demonstrate your language proficiency. Visit www.uvic.ca/esl for details.

Undergraduate English Requirement

All undergraduate students are required to take a designated English course in order to graduate with a UVic degree, unless you qualify for one of the exemptions listed at www.uvic.ca/english-requirement.

Before registering in an English class, most students must take the Language Proficiency Index (LPI) to determine which class they need to take. Visit www.lpi.ubc.ca for test dates and locations. Current Canadian high school students with a minimum midterm grade of 86 per cent in Grade 12 English will be permitted to register in an English course without an LPI result.

IB students who have scored 32 points or better on the diploma will receive a minimum \$2,000 (CAD) scholarship to help jumpstart their university career.

BC and Yukon high school students

The BC and Yukon high school requirements are listed on pages 16 and 17. We've listed the corresponding approved BC courses in the chart below.

Provincial exams for BC students

If you choose to write an optional Grade 12 provincial exam, we will use the higher of your school mark or your blended mark (school mark and provincial exam results combined) to calculate your admission average. You must still write provincial exams in subjects that are mandatory for graduation (English 12, English 12: First Peoples, First Nations Studies 12).

Transfer students

If you've completed university-level work at an accredited post-secondary institution, you may be eligible for admission at the second-year level or above, depending on faculty and department requirements and on the transferability of courses.

See www.uvic.ca/programreq for more information.

International Baccalaureate and Advanced Placement students

As an IB or AP student, you are recognized as having completed university-level course work and can receive transfer credit for specific courses, advanced standing (allowing you to register into a higher level of course work) or even additional scholarships.

See www.uvic.ca/ibap for more information.

Approved Grade 11 and 12 courses for BC and Yukon applicants (French Immersion equivalents are also accepted)

Every applicant must have completed English 11 AND either English 12 or English 12: First Peoples.

Math 11 and equivalents

- Pre-Calculus 11
- Principles of Mathematics 11
- Applications of Mathematics 12
- Foundations of Mathematics 12

Sciences 11 and equivalents

- Biology 11
- Chemistry 11
- Earth Science 11
- Physics 11
- Applications of Physics 11 and 12 (both must be completed)

Social Studies 11 and equivalents

- Social Studies 11
- Civic Studies 11
- BC First Nations Studies 12
- Yukon First Nations Studies 12

How to apply

1 Choose a faculty and program.

Visit www.uvic.ca and click on “Choose your program”.

2 Check admission requirements.

Check the admission requirements for your faculty or program on pages 16 to 19 of this handbook or visit www.uvic.ca/programreq.

3 Select a start date for your studies.

September is the most popular, but you can start some programs in January or during the summer. See the chart on the facing page, or check the University Calendar at www.uvic.ca/calendar.

4 Apply online at www.uvic.ca/apply

You'll be redirected to the Post Secondary Application Service of BC site, where you will create an account and fill in the required information. You'll then be taken back to the UVic application form to complete the application process.

Provide additional material as requested. If you are applying to the Faculties of Business, Fine Arts and Human and Social Development, you may be required to submit additional materials, such as a questionnaire, audition and/or portfolio. Check the appropriate program website for more information at www.uvic.ca/academic.

Be sure to check the application deadlines on the facing page.

5 Pay your application fee.

If you don't pay your application fee, we can't process your application. If you use the online application form you will pay your application fee during the application process.

6 Self-report your grades.

If you are a current Canadian high school student, visit www.uvic.ca/self-reporting and tell us your final Grade 11 marks and interim Grade 12 marks (once you've applied and have received your student number). You could receive a conditional offer of admission for September 2011 as early as Fall 2010.

7 Submit your transcripts.

Arrange to have two (2) official transcripts of all secondary and post-secondary course work forwarded directly from the issuing institution to the address below.

- If you are a current BC high school student, visit www.bced.gov.bc.ca/exams/tsw/tsw/student starting in January to give permission for your grades to be automatically sent to UVic via the Ministry of Education.
- If you are a current Ontario high school student, you can provide us with your OUAC reference number to have your grades automatically sent to UVic.

Undergraduate Admissions
University of Victoria
PO Box 3025 STN CSC
Victoria, BC V8W 3P2 Canada

Questions about the application process?
Visit www.uvic.ca/adms/contact.html or call 250-721-8121.

After you apply

After you have applied you will receive your UVic student number by email.

You will also receive a letter providing you with an admission contact, information regarding the completion of your application process. Visit www.uvic.ca/mystatus to check the status of your application online and ensure that we have received all your necessary documentation and transcripts.

FACULTY/PROGRAM	ENTRY POINT	APPLICATION DEADLINE	FINAL DOCUMENT DEADLINE
EARLY ADMISSION CANADIAN HIGH SCHOOL STUDENTS			
Current graduating Canadian secondary school applicants only, all faculties. Visit www.self-reporting for details.	September	February 28	May 15 (for all documents other than final grades)

When to apply

www.uvic.ca/deadlines

For a complete list of application deadlines for all programs offered by the university, consult the website above.

The deadlines above are fixed dates. If a fixed date falls on a holiday, a Saturday or a Sunday, the nearest following day of business will be considered the deadline. The university reserves the right to make changes as necessary.

These are the final application deadlines but the sooner you apply, the sooner you will receive your admission decision.

IN DUE TIME:

“Final document deadlines” refers to final transcripts. Interim transcripts and other supplementary materials have earlier due dates. Contact your program of interest for details.
